

## Annual Health Check Standards Did you know?

 All people with a Learning Disability from the age of 18 are entitled to an annual Health Check.

 An Annual Health Check should be a minimum of 30 minutes.

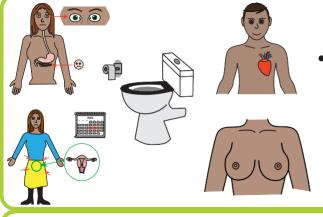

The annual Health check should include a physical examination.

 The Doctor should ask about everything in the Get Checked Out checklist.

• From October each year citizens should be offered the Influenza Vaccine Free of charge.

The Doctor should talk about or offer appropriate National Health Screening. More information can be found in the Get Checked Out checklist.

- The Doctor should provide an Health Action Plan at the end of the Health Check stating either:
- The person is fit & Well and to return in a year for an Annual Health Check.
- Health issues identified and support needed.
